(United Press Staff Correspondent)
WASHINGTON, April 28. — "We
can only say that we are hopeful.
Publicity now might spoil all,"
statement from A. B. C. mediators
trying to settle the Mexican prob-
lem.

"The sky seems clearing, mean-
while we are getting our citizens to
safety," Secretary of State Bryan.
That was the Mexican situation to-
day.

Mediator Has Blues
The only truly pessimistic note in
the day's developments was the state-
ment that one of the three envoys
of South American republics who will
attempt to mediate has no hopes of
success. This became known unoffi-
cially today from a high source. It
was not learned which of the em-
bassadors in the trio entertains this
view.

The demands of the United States
and of Huerta are still unknown. Sec-
retary Bryan today refused to make
public any portion of United States'
stipulations.

The Spanish ambassador today
brought Secretary Bryan official
word of the acceptance of the media-
tion proposal by Huerta.

To Second Stage
Mediation had passed the initiation
stage. Each side has accepted the
proffer of the three great South Am-
erican republics. Today the media-
tors were waiting for proposals of
demands. Then will come the real
work, that of reconciling opposite
propositions.

If a strong man can be developed
in Mexico now, there is hope that the
mediation proposal may succeed. A
Mexican who can get the united sup-
port of all of the warring elements in
Mexico City is wanted as provisional
president. In any plan considered it
is admitted Huerta, Carranza and
Villa must be eliminated. So must
their adherents.

It has been learned on question-
able authority today that the United
States will be most magnanimous in
its demands.

Huerta Must Go
There is only one imperative de-
mand from which President Wilson
will not recede. That is Huerta must
be eliminated and a guarantee of ac-
tual constitutional government must
be given. Demands for an indemnity
for the death of our bluejackets and
marines killed at Vera Cruz or be-
cause of our enormous expenditure
will not be pressed.

The mediators believe that Huerta
will get out. If he does not, they
feel confident the better class of
Mexicans in the capital can be de-
pendent upon to force him out. Of
course, in that event Huerta may de-
cide to take with him all the troops
he can and conduct a revolution of
his own later on. Much diplomatic
and financial support has already
been withdrawn from the dictator.

Meanwhile there is to be no ces-
sation in the work of getting ready
for war here. Now that the militia
bill is a law, the war department is
working to completion its plan to
utilize the national guard as a real
adjunct to the regular army. In ev-

WASHINGTON, April 28. — With
free exchange of refugees going on
between the American authorities at
Aguila Cruz and the Huerta officials at
Mexico City, the war situation was
calm at Washington today. Ameri-
cans in Mexico City are in no further
danger, according to a dispatch
received today from the Brazilian
ambassador in Huerta's capital.

No Americans Killed
No Americans have been killed in
Mexico City, none is in danger, and
only one is under arrest, according to
the assurances from the Brazilian
minister.

The one man under arrest is held
at Aguila Calientes under a judicial
proceeding which is in no way con-
nected the anti-American demonstra-
tions.

The minister declared he had "full
assurances" that all foreigners will
be allowed to leave Mexico City and
that arrangements were under way
to get them out today if they cared
to go.

Federals Want nion
The only advice from Mexico that
carried any seeds of worry to the
minds of departmental officials was
word from Admiral Mayo at Tampico
that federal officers were negotiat-
ing with the attacking constitutional-
ists, hoping to secure a combination
of forces against the United States.

That the federals were meeting with
little success, however, was gathered
from word in his dispatch that heavy
fighting between the two forces was
still going on.

Admiral Mayo reported that Major
Clark of the royal marines, aboard
the British cruiser Hermione, has
gone to Orange hill, forty miles from
Tampico, to bring in American refu-
gees.

Defends Mayo
Upon receipt of these messages the
secretary of the navy took occasion
to defend the course of Admiral Mayo
in handling refugees at Tampico. The
admiral has been severely criticized
by refugees now in Galveston who ac-
cuse him of having "left them in the
lurch." Senator Fall yesterday made
public several telegrams of protest.

In explaining why Admiral Mayo
himself did not go to Tampico for
refugees, the secretary said: "On the
day of the fall of Vera Cruz, Admiral
Craddock of the British navy offered
to go to Tampico, where fighting be-
tween federalists and constitutional-
ists was going on, and bring out
Mexican refugees. Realizing that the
presence of American sailors in Tam-
pico at that time might cause trou-
ble, Admiral Mayo accepted Admiral
Craddock's offer. It was a wise thing
for Mayo to do."

Will Land Troops
Official notification that Gen. Fun-
ston had arrived at Vera Cruz was
given Secretary of War Garrison to-
day by way of the navy department.
Garrison emphatically denied reports
that his troops would not land in
Vera Cruz.

"I gave no orders to have them
stay outside the harbor," he said,
"and no orders for them not to
land."

The secretary said Funston will be
in command of the city.

CONVENTION CALL ISSUED TODAY BY CONSERVATIVES

County Meeting to Pro-

W. E. BARBER NAMED CHAIRMAN

Selected at Conference of
Twenty-five Men Held in
Office of Frank P.

COMMITTEE OFFICERS NOT INVITED

Neither Chairman nor Sec-
retary of Republican
County Organization
Is Notified

Protesting "high taxes," asserting
that the state is supporting many
"useless commissions" and main-
taining that the university is being
managed in an extravagant manner,
conservative republicans here today
circulated petitions calling for cau-
ses Thursday, May 7, at which
delegates will be elected to a county
convention to be held in the court
house Saturday, May 9.

The purposes of the county con-
vention, says the petition are "to
give the voters an opportunity to
voice their protest against extrava-
gance in government and misrule,
and to elect delegates to a republi-
can state convention, the purpose of
which shall be to organize the re-
publican party of the state and nomi-
nate a state ticket of able men who
can be relied upon to reduce our tax-
es and for the further purpose of re-
organizing the republican party and
pass such legislation as will re-es-
tablish party responsibility for our
public business."

Conference Last Night

The call for the county convention
was issued today following a con-
ference held in the office of Frank
P. Hixon last night. A county con-
vention was urged by Emanuel Phil-
lip, Milwaukee, on a recent visit to
La Crosse. Mr. Phillip is the man
who took the initiative in the move-
ment to put a straight, conservative
republican ticket in the field this
fall and recently toured the southern
part of Wisconsin "feeling out" sen-
timent.

At last night's session, which was
attended by about twenty-five lead-
ing conservatives, W. E. Barber was
chosen chairman of the committee.

The executive committee consists
of Frank P. Hixon, P. J. Yerly and
T. H. Spence.

The finance committee is compos-
ed of George H. Gordon, Frank P.
Hixon and Henry Gund.

Many Not Invited

Inquiry disclosed the fact that
neither the chairman nor the secre-
tary of the republican county com-
mittee were notified of the confer-
ence last night and leading progres-
sive republicans were not invited to
participate in the "re-organization"
of the party.

The petitions for the caucuses are
worded similarly to those sent out by
the conservative crowds in other
Wisconsin counties.

"This movement is not a one man
or private clique affair," said Chair-
man Barber this morning. "The call
for the convention is the result of a
popular demand for a change in the
administration, a reduction of taxes
and state government that is more
representative of the people."

vative estimates. Other estimates runs as high as 175.
At Ludlow 25 were killed, of whom 14 were little children,
and two women.
At Chandler, Empire, McNally, and other places, 22 more
have been killed.

children safe conduct. Gen. Chase and 400 troops leave for
front, with many soldiers reported mutinous and refusing to go.

bloodshed. Relieve defenders of Empire mine with three strik-
ers dead and four defenders wounded as casualty totals. Gover-
nor Ammons slips into Denver and takes charge.

strikers attack Chandler mine, in Fremont county, formerly peace-
ful section.
April 26—Sunday afternoon 5,000 stand on state house lawn

rado, under martial law.
Estimates of destruction to date are that eight mines in the
southern fields have been fired and the destruction of property
has been such that many camps have been wiped out.

while the men were at work.
Eccles is located in Raleigh coun-
ty, south central West Virginia, in
the Kanawha river district. It is a

THREE BIG PUBLIC BUILDINGS

Homes to Be Erected
Built for Years

Approximately a quarter of a mil-
lion dollars will be expended on the
erection of new buildings and dwell-
ing houses in La Crosse this season
according to figures procured from
La Crosse architects today. Plans
are now underway for \$203,000
worth of work and local architects es-
timate the smaller jobs, many of
which will not require plans, at near-
ly \$50,000.

Percy D. Bentley, one of the lead-
ing architects of the city, who is spe-
cializing in dwelling house plans,
today declared that 1914 will see
the erection of more beautiful and
expensive homes than has been built
here for years.

Three Public Buildings

Construction of buildings of a pub-
lic nature is also in advance of the
average year. A theater, church and
hospital are planned, which will cost
approximately \$126,000.

DENVER, Colo., April 28.—
The long arm of the United
States government reached out
from Washington this afternoon
to put an end to the civil war
now raging in Colorado.

Within twenty-four hours six
troops of United States cavalry
will be on the ground or on the
way, with instructions to end
the bloodshed in Colorado, "even
if it is necessary to shoot to kill
to accomplish that result."

All Colorado received with
imense relief this afternoon the
dispatches from Washington an-
nouncing that the president had
acceded to the urgent request
of Gov. Ammons that federal
regulars be rushed to the scene.

With dispatches pouring in
from northern and southern
Colorado telling of fighting be-
tween state militiamen and the
mine guards on the one side and
armed strikers on the other at
a dozen places, the president's
order came just in time to avert
a more sanguinary conflict.

Trinidad and Walsenburg re-
ported by telephone and tele-
graph that soldiers at the Wal-
sen and Robinson mines and the
ridges west of Walsenburg had
mounted machine guns and were
sending a hail of lead not only
into the strikers, entrenched at
the McNally mine nearby, but
also into the city of Walsenburg
itself.

In the latter place a veritable
reign of terror existed.

WALSBERG, Col., April 28.—
Seven mine guards are dead, one woman
and one man wounded, the re-
sult of fighting late yesterday after-
noon at the McNally mine of the Col-
orado Fuel & Iron company. The
mine was captured by 200 coal mine
strikers. Fires blazed in the camp
the greater part of the night and
observers early today said apparently
the boarding house, bunk house, tip-
ple, and shaft house had been burned
or dynamited.

Retreat to Walsen Mine

Immediately after the capture of
the McNally mine, the guards which
defended it retreated towards the
Walsen mine, one of the largest in
southern Colorado, and strikers kept
up desultory firing upon that place
all night.

It was expected by the guards that
general assaults on the Walsen and
Robinson mines would take place to-
day.

WASHINGTON, April 28.—
Following a lengthy series
of conferences, a general
discussion in the cabinet,
and a conference this after-
noon between President
Wilson and Secretary of
War Garrison, the president
ordered federal regular
troops immediately to pro-
ceed to the Colorado strike
zone and restore order.

At the same time Presi-
dent Wilson prepared a
proclamation which has
been telegraphed to Color-
ado and will be published
there immediately calling
upon all persons to lay down their
arms and repair to their homes.

The proclamation, which is in ef-
fect a reading of the riot act by the
federal government, will be en-
forced by six troops of cavalry. Sec-
retary Garrison has sent the order
to the cavalry now at Fort D. A.
Russell, Wyo., and other forts in
that section.

Secretary Garrison has had the
troops in readiness for two days. The
question had been debated by the
cabinet today, the particular problem
being whether it was not desirable to
await the special session of the Colo-
rado legislature called for next Mon-
day. It was 2:24 p. m. when Garri-
son left the White house to send a
telegram actually ordering the sol-
diers to the strike zone.

On behalf of the president, Sec-
retary Tumulty announced that the
troops had been sent only after both
United States senators from Color-
ado, the state congressional delega-
tion, and both parties to the labor con-
trovercy had united in the request. As
an explanation the following tele-
gram sent by the president to Gov-
ernor Ammons was made public.

Wilson's Reply

"In response to your telegram de-
scribing a situation of domestic
violence in your state, which you inform
me has passed beyond the ability
of the state to control and conveying
your request to me to dispatch fed-
eral troops, pursuant to section four,
article four, of the constitution of
the United States, I beg leave to ad-
vise you as follows:

"That section of the constitution
provides that the United States shall
protect such states, upon application
of the legislature or of the execu-
tive when the legislature cannot be
convened, against domestic violence
and is put into effect by certain sta-
tutes. They make it lawful for the
president to use the land or naval
forces as he deems necessary, and
that whenever in his judgment it be-
comes necessary to use these forces
he shall forthwith by proclamation
command the insurgents to disperse
and retire peaceably to their respec-
tive abodes within a reasonable time.

MUSICAL
REVIVAL

The time is just past for an appro-
priate revival of the inspiring song.
"Johnny, get your gun,
Your sword and pistol,"

for "chippie" is getting off the
fence. It is truly hoped that "the
war is over. At any rate, none of
the boys who might have gone to the
front indulged in the shrewd second
thought of another old rhyme which
runs:

"I think I'll join the army;
War's horrors don't alarm me,
I'm a soldier's son.

"Oh, dear! There goes a gun!
I think I'd better run—
Those bullets swift might harm
me."

SEND TROOPS TO
COLORADO NOW

Perhaps the affair with Mexico is
simple excuse for the tardiness with
which the administration at Wash-
ington recognized the grievous situ-
ation in Colorado, a condition which
so far as the future of representa-
tive government is concerned is of
more grave and far reaching impor-
tance than could be any foreign war
not threatening our national life.

However, the announcement that

the president "may send federal
troops to Colorado" is reassuring,
and promises more than could have
been expected of any recent previ-
ous administration.

Of course a "request" by the pres-
ident to Mr. Rockefeller to stay the
hand of defiant death in Colorado was
weak. The killings there are mur-
der. No "request," but a firm com-
mand is needed. We may as well put
a stop to slaughter of the "armored
train" type, even if the blow rocks
the "ship of state."

A United States army brigade and
martial law are badly wanted in
Colorado.

LET MR STALLINGS
INTRODUCE YOU

Monday The Tribune began publi-
cation of the greatest sporting fea-
ture ever put on by a LaCrosse news-
paper—Stallings' cartoons.

These cartoons appear daily in an
alternating series of intimate por-
traits of great ball players and the
stunts of "Boyville," the latter on
the lines of Briggs' "The Days of
Real Sport," with which they com-
pare favorably.

Stallings' portraits, run in the cen-
ter of a group of sketchy comics il-
lustrating current sporting events,
are distinctive. It is claimed for this
artist that he has no peer in life-
like portraiture, catching the charac-
teristic expressions by which intima-
tes best know the various stars.

Watch the drawings—they carry
the live note in each day's sport, and
they give the constant reader an im-
pression of the individuals so accu-
rate as to approach personal ac-
quaintance in the degree of intimacy
he acquires with the subjects. Stall-
ings makes you know your stars.

HE SAID IT.

HE SAID IT NOT?

A LaCrosse paper published a
statement purporting to come from
Judge Karel in which he said he
would be a democratic candidate for
governor. The statement was pub-
lished in black faced type and car-
ried a heading in size commensurate
with a statement of that importance.
It was accepted as a definite
announcement from him. * * * Now
comes Judge Karel and denies that
he made any such statement—George
E. Mathes in Milwaukee Sentinel.

When in LaCrosse attending an
installation of the Eagles on the date
upon which the story referred to by
Mr. Mathes appeared in the Leader-
Press, Judge Karel told a representa-
tive of The Tribune that there had
been no new developments, and asked
as a personal favor that no com-
ment upon his visit be made. There-
fore it seemed odd that, the same
day, he should have given out the
important interview announcing his
candidacy. Skepticism was further
invited by the inference that so
shrewd a politician as is the judge
should have neglected to make this
announcement formal and place it in
the hands of some agency that would
give it simultaneous and widespread
publicity.

On one previous occasion when
Judge Karel visited LaCrosse—it
was to attend the Elks' country store
session a few weeks ago—The Lead-
er-Press published an important al-
leged interview affecting the judge's
candidacy, although he had assured
The Tribune he would have nothing
to say to anybody for publication, and
that alleged interview also was po-
sitively denied by Judge Karel.

We assume that Judge Karel val-
ues the respect of even those news-
papers which disagree with him polit-
ically and that he will resent being
placed in a false light. In any event,
his self respect would seem to insist
upon the truth being known. If he
did give out the alleged announce-
ments, he owes it to The Leader-
Press to protect it against the charge
of "faking;" if he did not give out
the announcements, he owes it to
himself and the people of Wisconsin
to publicly expose the frauds.

Mediation in Mexico and interven-
tion in Colorado—that would satisfy
the ends of justice.

He Should Worry

Business has not been good for
Blinks of late. A few nights ago,
instead of retiring to bed as usual,
he spent some time pacing up and down
his bedroom, evidently worried by
some trouble. At last his wife woke
up.

"What's the matter?" she asked.
"I have a heavy bill to pay to
Blank tomorrow, and I am worrying
because I haven't the money."
"Oh," she answered, comfortingly,
"you get into bed and let Blank do
the walking about and worrying."

Encouragement

A gang of laborers were employ-
ed digging a mysterious ditch across
the street. It was a sewer or a place
to put a gas pipe, or something.
One man in particular was working
as if he were a chorus man in a play,
just going through the motions and
pretending to dig a ditch. The fore-
man came along and spoke to him.
"Don't be afraid," he said with
rich sarcasm. "Lean on th' shovel
now an' thin' if it breaks I'll pay
for it!"—San Francisco Argonaut.

Going Mother-Love One Better
"Do you think," asked the widow,
"you could learn to love my chil-

own?"

"O, yes," replied the anxious
maiden. "I think I should care
more for them, really, than if they
were my own, because I shouldn't
have to worry so much about them
if they got hurt or were sick."—

is he working at?"

38-in. AMERICAN Radiators, costing the
owner \$225, were used to heat this cot-
tage. At this price the goods can be bought
of any reputable, competent fitter. This

cording to climatic and other conditions.

IDEAL Boilers and AMERICAN Radiators have within the past few years been put in hundreds of other
notable buildings, palaces, institutions, universities, schools, churches, stores,
flats, etc., of America and other countries. And best of all, these outfits
have already been put into many hundred thousands of humble homes, old and
new, farm and city. In countries where every penny counts in the practice
of domestic science, these heating outfits are thoroughly appreciated by the
old world's people. If Americans were not so wasteful, no inhabited building
of any kind in this country would be without an outfit of IDEAL Boilers
and AMERICAN Radiators.

They save so much in fuel, need so little care, protect the family health, do away
with repair bills, give vastly longer life to furnishings because of absence of ash-dust, soot and
coal-gases, will wear as long as the building stands and finally enable one to sell or rent his
property at quicker, higher price.

Don't wait until you build—comfort your present home. Our foundries are so located at
home and abroad that they save heavily in freight and handling between maker and user.

CROWD MARINES ABOARD VESSEL

Describes How Sea Soldiers Are Packed Upon Battleships Bound for Mexico

A glimpse of life on board one of Uncle Sam's dreadnaughts enroute to Mexico is contained in a letter from Floyd R. Peterson, a sailor on the U. S. S. South Dakota, received recently by his parents, Mr. and Mrs. Morris Peterson, 1109 Gillette street. Following is the letter:

"U. S. S. South Dakota, San Francisco, Cal., April 19, 1914. Dear Father: We are under way at last (from Bremerton, Wash.) and are about forty-eight hours from San Francisco yet. Nobody seems to know what our orders are, except that we are to stop at 'Frisco, for more men, that is, more sailors and marines. A marine is a sea soldier who does all the police duty aboard ship.

Ordered to San Diego

"After coaling, I suppose we will go to San Diego and lay there until further orders. I can hardly write this, as the old packet is doing the cork screw turn. I am standing at steering room watch now, nothing to do but stay down here and report if the steering engine breaks down. This ship is steered in a half dozen different ways, and in different places, in case any part should break down or be shot away, that we wouldn't be quite helpless. We can steer by steam, hand or electricity. It would take six or eight men to steer by hand.

"There surely was a bunch of sick marines aboard yesterday and today. They are crowded aft like sheep, with hardly room to turn around in, but we are not much better, except that we have hammocks to sleep in, while they have to sleep on deck. They have a hard time of it, too, as we have been shipping water through the gun ports right along. The gun shutters were not in place until this morning, there being only a piece of tarpaulin stretched across them.

Get Cold Water Bath

"Last night I had the two to four watch, receiving the call at a quarter to two. No sooner had I slipped from my hammock to the deck than a big wave burst through the tarpaulin, half drowning me. I had a salt water bath, and a cold one, I want to tell you. The gun deck was covered with three inches of water until it ran out of a scupper. About twenty-five marines who were sleeping there got soaked to the skin. It surely is a cruel war.

"I went upon deck a few minutes ago to find an electrician. The lights went out, and all was black as ink for a while. A mile off to starboard is a big passenger steamer bound for Seattle. She looks as pretty as a picture. She is making eighteen knots (about twenty miles) an hour, and should be in Seattle tomorrow morning. Our cruising speed is ten knots but we can make twenty-two knots under forced draft. A knot is approximately a mile and one seventh. Our course is south-southeast.

Too Cold for Movies

"There are going to be moving pictures on the quarterdeck tonight, but I don't think that I will go. It is too cold there for me. It is quite wet, too, as the spray is flying thickly on our weather side.

"Russell."

WRITE STORIES FOR MOVING PICTURE PLAYS

New, Spare-time Profession for Men and Women—One Man Makes \$3,500 in Six Months

Owing to the large number of new motion picture theaters which are being opened throughout the country, there is offered to the men and women of today, a new profession, namely, that of writing moving picture plays. Producers are paying from \$25 to \$150 for each scenario accepted, upon which they can build a photo play.

\$3,500 in Six Months

As it only requires a few hours' time to construct a complete play, you can readily see the immense possibilities in this work. One man, who gave the idea a tryout, writes that he earned \$3,500 in six months. It is possible for an intelligent person to meet with equal success.

One feature of the business which should appeal to everyone, is that the work may be done at home, in spare time. No literary ability is required and women have as great an opportunity as men. Ideas for plots are constantly turning up, and may be put in scenario form and sold for a good price.

Painless Death.

On one occasion a well-known public man described the act of dying as "a great adventure that must be much more interesting than setting out for the north pole." While few will agree with him, it is a great thing to know that science has robbed death of its terrors, and has taught us that no matter how much a dying person may appear to be suffering, he or she, immediately before death, can feel no pain whatever.

The Real Secret of Rejuvenating the Face

She holds the true secret of facial rejuvenation who has learned how to remove the dead skin particles as fast as they appear. It's a secret anyone may possess. The aged, faded or discolored surface skin may be gradually absorbed, in an entirely safe and rational manner, by the nightly application of ordinary mercolized wax. Within a week or two the underlying skin, youthful and beautiful to behold, has taken the place of the discarded cuticle. So little of the old skin is absorbed each day there's no inconvenience at all, and no one suspects you are putting anything on your face. The mercolized wax, procurable at any drug store (an ounce is sufficient), is a cream with soap and water. It's the best thing known for freckles, blackheads, pimples, moth patches, liver spots and fine surface wrinkles. For the deeper wrinkles, an excellent recipe is: Powdered sassafras, 1 oz., dissolved in 1/2 pt. witch hazel. Bathing the face in the solution produces quick and wonderful results.

VILLA MEETS HIS COMMANDER TODAY

Carranza and His General Thrash Out Attitude Towards U. S. in Huerta Trouble

SILENT ON MEDIATION PLANS

Provisional President Refuses to Comment on the Plan of South American Nations

CHIHUAHUA, Mexico, April 28.—Conferences between General Francisco Villa, General Venustiano Carranza and General Felipe Angeles, leaders of the Mexican constitutional revolution, regarding their attitude towards the difficulties involving the United States and Huerta, were held here today. Villa, Angeles, Colonel Luis Aguirre Benavides, and other members of Villa's staff, reached here late last night and went immediately to Villa's home. Villa conferred briefly with Carranza last night.

Carranza was notified by telegram from El Paso and Washington last night that Huerta had consented to accept the mediation proposition proposed by Argentina, Brazil and Chile. The rebel "first chief" declined to make any comment.

According to an official dispatch from General Pablo Gonzales to Carranza, constitutional forces under Gonzales which occupied Monterey Sunday, followed up their advantage by following and defeating the federalists on the road to Saltillo. The fight occurred at Garcia, thirty miles southwest of Monterey. The federalists, retreating from Garcia, left great quantities of supplies and all of their artillery.

DEBATERS DEFEAT THE PEDAGOGUES

The Wendell Phillips baseball team defeated the faculty nine by a score of 4 to 2, yesterday on the high school campus. The score was tie until the last inning, when Swennes of the Wendell Phillips made a three base hit, knocking in two runs. The pitching on both sides was good. K. C. Puckett, who pitched for the pedagogues, made seven strike outs and passed only two men on balls. The opposing team made four hits off him. Tobias, the Wendell Phillips pitcher, struck out ten men, passed two men on balls, and allowed only three hits. The Wendell Phillips team made but three errors as compared to six by the faculty. A large number of high school pupils turned out to witness the battle royal between the "pros" and the "W. P." team. The Lit club and the sophomore teams are leading the league, neither having lost a game as yet.

SOCIETY

STREAN-HIXON

From The Kansas City Star: St. Paul's Episcopal church was filled last evening with a fashionable assemblage to witness the marriage of Miss Marguerite Greenleaf Strean, daughter of Mr. and Mrs. James G. Strean, and Mr. Robert Hixon of Toledo, O. The beautiful service of the Episcopal church was read at 8 o'clock by the Rev. J. D. Ritchey. As friends were arriving Mr. Clarence Sears, the organist, gave a brilliant entertaining recital as follows from 7:30 to 8 o'clock:

1. Introduction to the Third act of Lohengrin.....Wagner
2. Serenade.....Widor
3. Meditation from "Thais" Massenet
4. Chant D'Amour.....Gillette
5. Barcarolle from the Tales of Hoffman.....Offenbach
6. Berceuse.....Godard

This program melted into the bridal chorus from "Lohengrin," sung by fifteen vested boy choristers whose voices floated in from the choir room back of the altar, and as the melody filled the church the bridal procession slowly advanced to the altar, followed by the bride, a vision of ethereal loveliness, on the arm of her father, who gave her in marriage. The altar, chancel and rail were massed with palms and ferns, in the midst of which Cathedral candles burned, and great bouquets of Marguerite daisies added their contrasting color of snowy whiteness. Down the aisle on either side were six tall standards, each holding six lighted candles and topped with flambeau bouquets of Marguerites and white lilies. At the home, where the reception followed, Marguerites and white lilies were also used in the gold drawing room reserved for the bridal party and where the wedding cake was cut. Cathedral candles with old shades gave the mellow light in this room. In the long living room and dining room pink hydrangeas and snap dragons banked the mantels. The hall was lined with a hedge of palms that extended out on the veranda which was inclosed and canvased and fitted up as a garden, and here the orchestra played. The bride was robed in a soft white satin falling from the empire back in a full court train. The bodice of tulle was trimmed with lovely old point lace, which had been worn by the bride's mother on her wedding day. It was laid under the tulle in the front and back, outlined the neck, sleeves and girdle, and edged the soft tulle train in several graduating tiers, as it fell over the satin skirt. The filmy bridal veil was arranged in cap effect to the bride's soft hair, edged with the old point lace and encircled with orange blossoms. She carried a shower of pale pink orchids, gardenias and lilies-of-the-valley. The maid of honor, Miss Dorothy Hixon of La Crosse, Wis., wore a pink taffeta

MISSION STUDY CLASS
There was a large attendance yesterday afternoon at the Congregational Mission Study class, which was entertained by Mrs. George Bunge. It was the last one of the course and unusually interesting. The lesson, which was upon immigration from China and Japan, was led by Mrs. L. P. Benet, who took up China, and Mrs. W. D. Iden, who discussed Japan.

A memorial to the memory of Mrs. Albert Hardy, who was one of the prominent members and an earnest worker, was adopted. Mrs. Rowlinson, Mrs. L. C. Colman and Mrs. John Brindley, who were delegates to the home missionary convention recently held at Madison, gave interesting accounts of the meeting. Mrs. Brindley and Mrs. Colman spent half a day at home of Rev. and Mrs. Faville. They described their visit with the former pastor.

SEVEN MORE DIE IN COLORADO WAR BUILDINGS BURNED

(Continued from page 1.)

gan late yesterday afternoon in many ways was the most spectacular battle of the many that have occurred in southern Colorado since last fall. Despite the fading light observers with field glasses, stationed on house tops and other points of vantage, were able to see every move of both sides. Every shot fired was plainly heard here.

An automobile which shot out of the camp at full speed was fired at repeatedly. In it were Superintendent Thomas Davis and his family.

TRINIDAD, Col., April 28.—

Telephonic advices from Walsenburg today state that 200 state militiamen reached there early today and mounted a machine gun on the ridge west of that place, sweeping the McNally mine with their fire.

T. M. Hudson, clerk of the district court at Walsenburg also asserts that militia and mine guards at the Walsenburg mine have a machine gun trained on the city of Walsenburg itself, and firing continued in the city streets to midnight.

Reports of fatalities here vary. One is that five strikers and three mine guards have been slain. Hudson says three miners were killed during the morning, either in Walsenburg itself or just outside. He asserts that one miner was struck by a bullet and killed while he was standing in the Seventh street depot at Walsenburg, far from the scene of the fighting.

United Mine Workers' officials here have advices that fifty militiamen this morning attacked the McNally mine, which was captured by strikers last night and were repulsed.

The most intense excitement prevails throughout the whole of the southern Colorado strike field and it is impossible to get any confirmation of reports. Wires, telephone and telegraph, have been cut in all directions.

At the first physician's house the machine stopped and it was then seen that Maggie Gregory, cousin of the superintendent, who was visiting him, was wounded in the left arm.

Burn Buildings

A few minutes later, six men ran from the hills towards several mine buildings and the boarding house was soon in flames. The fire quickly spread to the bunk house and at dark most of the camp buildings were burning. A horseman just at this time sped from the camp, making for the shelter of some pine trees. He had nearly reached them when he

Send War Supplies

PITTSBURG, Pa., April 28.—Two large shipments of ammunition from Charleston, W. Va., to the Colorado strike zone have been made within the last four days, according to reports here today. One machine gun was sent on Monday, it was said. The first shipment was made on Saturday by the Cabin Creek Consolidated Coal company, it was said, to "H. W. Krebs," at Trinidad and consisted of five cases of cartridges for Winchester rifles, about 1,800 rounds. That was followed on Monday, according to the report, by a shipment of one machine gun and 15,000 rounds consigned to "H. W. Krebs."

The machine gun is understood to be the property of the Baldwin-Felts Detective agency and to have been used against West Virginia miners on the Death Special, which swept Holly Grove.

pitched from his horse to the ground. Evidently the man had fled from a terrific explosion which followed almost immediately, wrecking the tippie.

It was shortly after this that the

mine guards retreated.

Fight in North

DENVER, Col., April 28.—Early today firing between mine guards and strikers at the Hecla mine of the Rocky Mountain Fuel company continued, according to telephonic advices from Boulder. The Hecla mine is in the northern Colorado coal fields, several hundred miles from Trinidad and Walsenburg. It was there the original Colorado coal strike started in 1910.

Two hundred armed strikers are reported attacking guards behind the stockade of the mine. The guards are reported to have turned a machine gun on Hecla Heights and the town of Louisville and to have swept the streets of that town. The volcanic mine of the same company, at Lafayette, was also attacked during the night and shots were fired on the mine guards at the Marshall and Gorham camps.

Women and Children Hide

Sheriff Buster is in command of the guards at Hecla. Telephoning to Boulder early today, he said all women and children in the stockade had been hidden in cellars. The guards during the night used a searchlight to locate the strikers before firing on them, he said.

Walter Belk, Baldwin-Felts, detective, who was one of the leaders of the mine guards in West Virginia, is in charge of the guards in northern Colorado. He is supposed to have eight machine guns at the various mines.

An interurban car which passed through Louisville at midnight, was met by 200 armed strikers who demanded to know whether any "scabs" were on board.

stockholders, and that at least three La Crosse men shall be on the board. At present \$70,000 has been subscribed, and it is estimated that the amount will reach \$100,000 within a month. As soon as that figure is attained the Langdon-Boyd properties will be turned over to the new company, and the co-operative plant will begin operating.

"We regard the success of the project as a certainty," said President Christy today. "Of course we assume that the La Crosse business men, now that they see the farmers are in earnest and that hundreds of them have already identified themselves with the La Crosse company, will do their part."

Secretary Tank, recognized as a keen and conservative business man, is quoted as having reached the conclusion expressed by President Christy.

MRS. ROSE TIKAL CALLED BY DEATH

Mrs. Rose Tikal, wife of Frank Tikal, died yesterday afternoon at 4:30 at her home, 1023 Tyler street, after a two years' illness with a complication of diseases. Mrs. Tikal was 43 years of age, and was born in La Crosse September 27, 1870. Besides her husband, she leaves three children, Louis, Wenzel and Cecelia; three brothers, Thomas, Frank and Albert Nekola, and one sister, Mrs. Mary Beranek, and her mother, Mrs. Albert Nekola, all of La Crosse. Services will be held at the home, 1023 Tyler street, tomorrow morning at 8:30, and at St. Wenceslaus church at 9 o'clock. Rev. J. Thill to officiate. Interment will be made in Oak Grove cemetery.

Rheumatic Fever

In the treatment of Rheumatic Fever many physicians employ purgatives, but Dr. M. P. Creed thinks that a mild laxative is better. When the patient is bilious he gives calomel in small doses, one-fifth of a grain every hour until a grain has been taken. Then after four hours he gives the patient a half ounce of citrate of magnesia, with syrup of lemon to disguise the taste, or he keeps the bowels open with the mild laxative "Actoids." The diet should be light and all animal food should be excluded as far as possible from the dietary. For the pain and fever he has found nothing equal to Anti-Kamnia Tablets, giving two tablets every 2 to 3 hours as required. These tablets may be obtained from all druggists in any quantity desired. Ask for A-E Tablets. Unexcelled for Headaches, Neuritis, and All Pains. P. S. Skin troubles readily yield to A-E Salve.

OIL KING'S STAND TO BE ANSWERED BY SENDING FORCE

(Continued from Page One)

my judgment is that it is necessary for me to use the military forces of the United States for the purpose defined by law, and I shall forthwith issue the proclamation provided by the statutes, and in pursuance thereof, shall order the troops, when they reach the scene of disturbance to cause all those who have been indulging in domestic violence or who threaten so to do, or whose acts are likely to give rise to disorder, to disperse and retire peaceably to their respective abodes, if they have not already done so within the time limited by my proclamation. I shall order that no person or persons natural or artificial shall be permitted to do that which will give rise to disorder of the character heretofore occasioned, to the end that good order may be established and maintained.

"I shall not, by the use of troops, or by any attempt at jurisdiction, inject the power of the federal government into the controversy which has produced the present situation.

"The settlement of that controversy falls strictly within the field of state power. My duty, as I see it, is to confine myself to maintaining a status of good order until the state can reassert its authority and resume the enforcement thereof.

Up to Legislature

"I am informed that your legislature cannot be convened in time to deal with this emergency but has been summoned to convene on May 4th. I shall expect you to draw the attention of that body to the imperative necessity of immediate consideration of the whole situation and as prompt action as is possible in the premises, in order that the use of official power may be limited within its contemplated confines, and in order that the state may take up its duty as soon as it is possible for it to do so.

"The manifest disadvantages of having two military forces under separate sources of control, operating within the same localities, leads me to request you to withdraw your militia so soon as the troops of the United States have reached the scene and are ready to take over the necessary control.

(Signed) "WOODROW WILSON," The first troops will go to Colorado from Fort L. A. Russell of Wyoming and Fort Leavenworth, Kan. Two troops of the Twelfth cavalry are now at the Wyoming station.

It is decided to send more troops later, Fort Riley will be drawn upon.

Administration Answer

The dispatch of the troops was the answer of the administration to the refusal of John D. Rockefeller to make a single concession to end the intolerable industrial warfare.

Some of the mines are expected to shut down indefinitely after the regular troops get there. Just which will do so or the real reason no one here knows.

The regular dispatched will not work under the Colorado local authorities. It has been directly charged that the real cause of the present trouble is that in nearly every instance, sheriffs of counties and commanding officers of state troops are in the pay of the coal companies and have obeyed the orders of the general managers of the various mines to exterminate the strikers. If this is so it will be all changed when the regulars get on the job. They will be told that the law is to be obeyed on both sides and that they can and must arrest all law breakers whether mine operators or strikers. They will also be told to shoot to kill if they have to shoot.

No Decision

After conferring with the president for half an hour, Secretary Garrison returned to the war department.

President's Proclamation

President Wilson's proclamation covering the strike zone in Colorado as planned by him and endorsed by Secretary Bryan gave until April 30 for order to be restored in the strike region and was as follows:

"By the President of the United States

DARKTOWN BELLES AT THE THEATRE

Ladies of the Universalist Church to Put on Genuine minstrel Show on May 4 and 5

"A ladies' minstrel show in La Crosse?" To be sure! "All in black face and wooly wigs?" Indeed yes! "When, did you say?" Why next Monday and Tuesday evening at the La Crosse Theater and that the Universalist ladies are sponsors for the entertainment is a gift edged guarantee of the excellence of the affair.

About sixty of our most prominent society matrons and misses are rehearsing every evening, and will be in the caste, and from the enthusiasm already shown it promises to put all former minstrel shows on the back number list.

Miss Lillian E. Hall, the director secured to have charge of the show, has few equals and no peers in her line of work and makes a specialty of black faced shows.

The entertainment will be gorgeously costumed, and is in two acts or "Spasms" as Miss Hall calls them. The first act is the regular first part minstrel, consisting of opening chorus, coon songs, funny stories and new jokes and local hits and finale chorus. "Olio" or second spasm will have fancy promenade songs, cake walking, burlesque, clever dancing and plantation scene. Each number on the program is better than the one before. It is an entertainment that will surely make the most pessimistic man in the audience forget his perpetual grouch, and is better than a spring tonic. Two whole hours of mirth and merriment! Two whole hours of pure fun and hearty laughter! Two whole hours of ragtime music and dancing. One continuous scream from curtain to curtain, and all by our popular La Crosse ladies. Remember and save next Monday and Tuesday evening for the Universalist ladies' minstrel at the La Crosse Theater.

tion of the legislature, or of the executive when the legislature cannot be convened against domestic violence; and

"Whereas, the governor of the state of Colorado has reported that domestic violence exists in said state which the authorities in said state are unable to suppress, and has represented that it is impossible to convene the legislature of the state in time to meet the present emergency; and

"Whereas, the laws of the United States require that in all cases of insurrection in any state of obstruction to the laws thereof whenever in the judgment of the president it becomes necessary to use the military forces to suppress insurrection or obstruction to the laws, he shall forthwith by proclamation command such insurgents to disperse, and retire peaceably to their respective abodes within a limited time. Now, therefore, I, Woodrow Wilson, president of the United States, do hereby admonish all good citizens of the United States, and all persons within the territory and jurisdiction of the United States, against aiding, countenancing, abetting or taking part in such unlawful proceedings; and I do hereby warn all persons engaged in, or connected with this domestic violence and obstruction of the laws to disperse and retire peaceably to their respective abodes on or before the 30th day of April.

In testimony whereof, I have hereunto set my hand and caused the seal of the United States to be fixed. "Done at this city of Washington, this 28th day of April, in the year of Our Lord, 1914, and of the Independence of the United States of America, the 138th.

poses to erect will cost about \$20,000. Plans for this will be drawn by Andrew Roth. Plans for the new St. Wenceslaus church to be erected at Tenth and Winnebago streets have been completed by Parkinson & Dockendorff and will be started within a couple of weeks. This will cost in the neighborhood of \$25,000.

Dwellings

Among the new dwelling houses to be built, plans of which were produced by Percy D. Bentley, are the following: Emil Mueller will erect a new house on the west side of Fourteenth street between Main and King, which it is estimated will cost more than \$20,000. This will be hollow tile and stucco and will introduce new designs in architecture which have not heretofore been used in La Crosse.

D. G. MacMillan will erect a house of brick and stucco on the southwest corner of Thirteenth and Cass streets which will cost \$20,000.

Vincent Tausche has let a commission contract to Contractor Peter Nelson for the erection of a brick house on the southeast corner of West Avenue and Madison streets, to cost in the neighborhood of \$10,000.

Frank Sisson will erect a house of brick and hollow tile on the northeast corner of Fifteenth and Main streets which will cost \$10,000.

Gus Sexauer will build a house of brick and hollow tile on the north side of State between Fourteenth and Fifteenth streets, costing \$8,500.

Dr. R. M. Kinnear will erect a duplex brick stucco house on the west side of Tenth between King and Cass streets to cost \$7,000.

Bert Van Steenwyk has ordered plans for a \$1,500 garage.

WANT \$15,000 FOR INJURIES TO CHILD

Suit Started Against L. H. Martin Who Is Alleged to Have Hit Boy with Auto

An examination of Wilford Van Zandberger, the plaintiff in an action against Louis H. Martin to recover \$15,000 for injuries received in an automobile accident, was held before Circuit Court Commissioner Alfred Harrison this morning.

The child, who is seven years old, testified that he was standing on the sidewalk in front of the Doerflinger Park Store watching Santa Claus in the store window when he was pushed off the walk by the jostling of the crowd and the automobile struck him before he was able to get out of the way.

The child's parents claim that he still has an unhealed sore on his jaw and that further operations will be necessary as the result of the accident.

The case will be brought before Judge E. C. Higbee at the next term of the circuit court which opens here May 11.

READY TO START ON DISCUSSION OF PEACE TERMS

(Continued from Page One.)

ery plan of operations the state troops now figure. Part of them have been selected to join Funston if he has to invade from Vera Cruz. Others are to go to Mexican border as part of an expedition that may be formed there.

Concerned About Rebels

The position of the constitutionalists is a source of grave concern. The reports of an impending break between Villa and Carranza are being carefully considered. Consul Carothers has been ordered to Chihuahua to keep the state department informed of every move.

A break between Villa and Carranza, at this time, would mean that Huerta might draw the support of Carranza and all of the constitutionalists loyal to him. The state department is convinced that Villa cannot be influenced to take a position against the United States and it is hopeful that he can hold Carranza. The cabinet today considered the mediation plan at some length. The position of the administration has been fixed and it will go to every honorable length to bring about peace. The president and his advisers are convinced that the bulk of the American people do not look with favor on a war to eliminate a single individual.

Must Show Results

It is realized, however, that the campaign begun by the dispatch of Badger and his war dogs southward cannot be abandoned without a showing to satisfy the people that there was real reason for seizing on the Tampico incident as an excuse for action. Therefore it has been decided that Huerta must be eliminated in any plan of mediation accepted.

No Move Today

The utmost reticence was maintained by President Wilson and his advisers regarding the Mexican crisis this afternoon. At today's cabinet meeting the general Mexican situation was thoroughly canvassed but no action was taken toward preparing any plans for submission. It was decided that no change should be made in the military or naval situation, but that the forces would maintain their present waiting attitude.

The next move must come from the mediators. Up to the present they have not suggested to this government any proposition for settlement.

The cabinet spent much time going over the situation so far as the various factions and their strength in Mexico was concerned with reference to the present location of this nation's fighting force. A large "war map" of Mexico held a prominent place on the wall in the cabinet room. Vari-colored flags indicated the position not only of the American army and navy but of the federal and constitutional forces in Mexico.

NOT IN FAVOR OF RELIGION IN SCHOOL

The Parents and Teachers association of the Normal school met last night. In the absence of President Farrand, vice president, Miss Bettinger conducted the meeting. Rev. Rowison who was to have presented a paper on "Religious Education" was unavoidably absent and the discussion of his paper, which was to have been made by Rev. Johnson was made general. Rev. Johnson gave a resume of the topic to be discussed and then turned the discussion over to the meeting. The chief point of discussion was whether time should be given from the school hours for the children to attend to instructions which would be given by the heads of the different denominations. This system is said to be successful at Gary, Ind. The consensus of opinion was that the time is not yet ripe for such action in this city. This topic will be discussed again at some future meeting.

ASKS \$60 BECAUSE HORSE WITH GOUT WAS SHOT BY COP

Edward Wiskirchen, 1323 George street, appeared before Judge Kleber this afternoon testifying that members of the police force had killed his horse just as it was recovering from "lymphangitis," which he explained corresponds to gout. Wiskirchen demands that Mrs. Andrew Falk, Desk Sergeant Thomas McDonough and Patrolman Mike Britton pay \$60 for the loss of the horse. Mrs. Falk reported to the police that the horse was in a dying condition and should be killed. The desk sergeant issued the orders and the patrolman fulfilled them. Wiskirchen says the horse, which he paid \$40 for two years ago, would have recovered.

REPORTED BRITISH ARMY IS BALKY

Has Again Refused to Take Part in Coercion of Ulster, Declares a London Report

LONDON, April 28.—The British army has again refused to take part in the coercion of Ulster, according to the Evening News here today. The reports, following the "gun running" in Ireland, that three regiments had been ordered to Ulster, later were denied, but the News declares that the troops were not sent north from Dublin because the officers again refused to serve.

Austen Chamberlain bitterly assailed the government in the house of commons today in moving for a vote of censure on the home rule policy.

Reports from Londonderry declare that the nationalist volunteers smuggled a consignment of rifles and ammunition into the county of Donegal last night.

RETREATING HUERTA SOLDIERS DESTROY

Carry Out Threat to Burn All Towns Between Nuevo Laredo and Monterey

LAREDO, Texas, April 28.—A party of twenty men from this city, who left Nuevo Laredo over the National lines yesterday with a locomotive and water car, to bring back a train abandoned by the federalists who evacuated and destroyed Nuevo Laredo on Saturday, returned here today.

They brought an interesting story of what they saw. At Sanchez the federalists destroyed buildings with dynamite and fire. Not a building remains.

At La Jita, thirty miles from Nuevo Laredo, the town was found a mass of ruins. The railroad bridge was destroyed.

It appears that the federalists are carrying out the threat made when they left Nuevo Laredo that they would destroy every town between Nuevo Laredo and Monterey, rather than leave them for occupation by the Americans.

FUNSTON'S FORCE IN INNER HARBOR AT CAPTURED PORT

EXCHANGE REFUGEES ON TRAINS

300 Mexicans Leave Vera Cruz to Meet Train from the Capital with Americans

AEROPLANE SCOUT GETS NEWS

Locates General Maas and His Forces and U. S. Outposts Are Strengthened

BY BERNARD RUCKER (United Press Staff Correspondent)

VERA CRUZ, April 28.—When the transports bearing General Fred Funston's Fifth brigade entered the inner harbor here early today thousands of Mexicans and Americans crowding the docks witnessed one of the most remarkable demonstrations of the fighting forces of the United States in history.

As the transports steamed in among the battleships an aeroplane ascending from the war ship Mississippi circled over the harbor, uniting the fighting forces of the land, water and air in Uncle Sam's service. The crews of the fleet cheered Funston's men and the troops returned the salute.

Mexicans Leave

A refugee train carrying 300 Mexicans left here early today and it was expected that another train with Americans from Mexico City will be met at Tejeria. There the passengers will be exchanged and the train carrying out the Mexicans will bring Americans to Vera Cruz. The city was quiet today and in a proclamation commending the Mexicans for the acceptance of the American occupation and compliance with orders, Rear Admiral Fletcher announced the abrogation of the order forbidding the appearance of Mexicans on the streets at night.

Locates Maas

Scout Aviator Bellinger reported to Rear Admiral Badger last night after reconnoitering over Vera Cruz and vicinity, that he had located General Maas and 1,000 federal soldiers beyond Soledad. The outposts of the American forces were immediately strengthened.

On assuming command General Funston will find Vera Cruz completely under the domination of Americans and the natives all but completely submitted to the military rule. The Mexicans have turned over more than 12,000 arms and 132,000 rounds of ammunition since martial law was declared. Sniping has ceased and business has been resumed. The Mexicans, here at least, have learned to respect the flag.

Salute the Flag

During the official flag raising at the headquarters of Admiral Fletcher yesterday, scores of Mexicans looked on in open eyed wonder. As the flag was run up while massed bands played "The Star Spangled Banner," the natives, who only last week fought against the landing of the marines and bluejackets, lifted their hats, as the sailors saluted. The entire American fleet and the American ships then boomed out a salute of 21 guns.

Another train load of refugees is expected to reach here late today or tomorrow from Mexico City. Arrangements were being made for the departure of five trains, arrivals here declared. These refugees stated that the capital was quiet when they left, but that wholesale looting was in progress.

In case the plans for mediation are proceeded with, there will be little for General Funston and his men to do in Vera Cruz, but to police and administer the affairs of the city.

180 Safe from Capital

One hundred and eighty refugees from Mexico City reached Vera Cruz by special train yesterday afternoon. They were practically all Americans. The editor of El Imparcial, one of the leading newspapers of Mexico City, arriving here declared that

MISS DINSDALE VISITS IN CITY

Miss Tirza Dinsdale, formerly
general secretary of the La Crosse
Young Women's Christian association,
arrived in the city Saturday
evening for a visit with friends. She
will remain for a week.

Miss Dinsdale resigned her position
with the local association last
July, and in September took up a
position with the association at
Muscatine, Iowa, resigning there
several months ago on account of
ill health. Since that time she has
been at her home in Galena, Ill.

The best of friends must part—
when they comb their hair.

"Smash the bottle to smithereens,
the devils in 'im." Tennyson.

If there remains a long hose
nursing bottle in the state of Wis-
consin, it should be smashed to bits.
The tube of such a bottle is danger-
ous as a snake. Indeed, more
deaths have been caused by filthy
nursing bottles than have been by
snakes bites.

Milwaukee has an ordinance for-
bidding their sale. Offering an old-
time nursing bottle to a baby, in view
of our present knowledge of the
danger, is morally little short of
murder. For those who know, there
is no excuse for permitting further
use by ignorant mothers.

The danger in the long nursing
bottle hose is that it is almost cer-
tain to contain germs. The only
means of cleansing it is by pro-
longed boiling. Inasmuch as the
only excuse for ever having used
such bottles is saving time in feed-
ing infants, it is certain that time
will not be given to sterilization.

Babies' bottles should be of the
large neck variety that can be thor-
oughly cleansed. After washing
they should be boiled. The rubber
nipples should be washed and boiled
after each use. They can then be
conveniently kept in a glass of boric
acid solution. Such a solution is
made by adding to a given quantity
of water as many boric acid crystals
as can be dissolved. This is about
five teaspoonsfuls to a pint of water.
Before using, the nipple is to be
thoroughly rinsed in boiled water
to remove the boric acid solution.

All utensils used in mixing the
baby's milk should be boiled after
washing. These precautions take a
little time. They save much in
doctor's bills, sickness, nursing and
funeral expense. By the way, all

drinking water given to babies is
made safe by boiling. It's a splen-
did form of life insurance against
internal diseases.

A copy of the Milwaukee nursing
bottle ordinance, (and further proof
if needed, will be furnished to any
mayor, health officer, alderman or
private citizen who will address a
request to this bureau.

ceived word from Mexico City that
President Huerta had accepted the
offer of Argentine, Brazil and Chile
today in favor of mediation in dis-
pute with the United States.

"I am hopeful of settlement by
this means," said Don Algara. "In
fact, I am extremely optimistic re-
garding the outcome. The United
States does not want war, and Mex-
ico does not want war."

the Boston Cooking School Magazine

In giving this recipe, Mrs. Hill be-
lieves it to be one of the best all-around

formly good results will appeal to every
housewife.

**One-half cup butter; 1 1/2 cups granu-
lated sugar; 1/2 cup milk; 2 cups flour;
2 level teaspoonsful K. C. Baking Pow-
der; 1 cup of nut meats chopped fine;
whites of 4 eggs, beaten dry.**

Sift flour and baking powder together,
three times. Cream the butter, add the
sugar; then alternately, the milk and the
flour mixture; lastly the whites of
eggs and the nut meats. Bake in a
sheet in a shallow pan thirty or forty
minutes. When cold cover with the
icing and decorate with whole nut meats.
This is also an excellent white cake recipe
when nut meats are omitted.

Chocolate Icing
**One cup granulated sugar; 1/2 ounce
chocolate, white of 1 egg, beaten dry;
1/2 teaspoonful vanilla extract; 1/2 cup
water.**

Stir the sugar, chocolate and water
until the mixture boils; cover and let
boil three minutes. Uncover and let
boil till when tested in cold water a soft
ball may be formed; beat until the white
of egg, then beat until cold, add vanilla.

The nut cake frosting given on page forty
of the K. C. Cook Book may be used in place of
the chocolate frosting, if desired. A copy of
the Cook Book, handsomely illustrated in 100
colors, will be mailed free, if you will send the

CRITICIZES ACTION AT TAMPICO PORT

Senator Fall Makes Bitter
Comment Upon the
Withdrawal of
Warships

WASHINGTON, April 28.—Bitter
comment was made on this govern-
ment's handling of the situation at
Tampico by Senator Fall of New
Mexico yesterday afternoon. He
showed a telegram received from J.
H. Wood, one of the Tampico refu-
gees just arrived at Galveston, as fol-
lows:

"Three thousand American refu-
gees saved by German and British
captains of gunboats from being
murdered in Tampico after our gov-
ernment had withdrawn war vessels
from that port, leaving them entirely
without protection. Appeal to you
and to the American nation to see
that we may return under the flag
and be allowed to protect our prop-
erty and earn our living. Otherwise we
are destitute, as everything will be
lost."

Fall immediately conferred with
the senate foreign relations commit-
tee members in an effort to get them
to demand full facts of the entire
Mexican situation from the adminis-
tration.

"No official explanation has been
made, or I as a senator have been
informed of none," he said. "To
show why the American gunboats
were withdrawn from Tampico, leav-
ing American citizens at the mercy
of a mob."

Answering many telegrams from
border cities appealing to Fall to aid
in obtaining American troops for pa-
trol duty, the senator said:

"You are depending upon a broken
reed if you are depending upon con-
gress to do anything for your protec-
tion."

THE CHARM OF MOTHERHOOD

Enhanced By Perfect Physi-
cal Health.

The experience of Motherhood is a try-
ing one to most women and marks dis-
tinctly an epoch in their lives. Not one
woman in a hundred is prepared or un-
derstands how to properly care for her-
self. Of course nearly every woman
nowadays has medical treatment at such
times, but many approach the experi-
ence with an organism unfitted for the
trial of strength, and when it is over
her system has received a shock from
which it is hard to recover. Following
right upon this comes the nervous strain
of caring for the child, and a distinct
change in the mother results.

There is nothing more charming than
a happy and healthy mother of children,
and indeed child-birth under the right
conditions need be no hazard to health or
beauty. The unexplainable thing is
that, with all the evidence of shattered
nerves and broken health resulting from
an unprepared condition, and with am-
ple time in which to prepare, women
will persist in going blindly to the trial.

Every woman at this time should rely
upon Lydia E. Pinkham's Vegetable
Compound, a most valuable tonic and
invigorator of the female organism.

In many homes
once childless there
are now children be-
cause of the fact
that Lydia E. Pink-
ham's Vegetable
Compound makes
women normal,
healthy and strong.

If you want special advice write to
Lydia E. Pinkham Medicine Co. (confi-
dential) Lynn, Mass. Your letter will
be opened, read and answered by a
woman and held in strict confidence.

Senator Hatton has just returned

LOCAL MAN CHIEF OF TORPEDO FLEET

Lieutenant Vaughn K. Coman Commands First Division of Fleet Now in Philippines

Lieutenant Vaughn K. Coman, at one time a student at the La Crosse high school and later appointed to Annapolis by Congressman John J. Esch, is now commanding officer in charge of the first division of the torpedo flotilla of the Asiatic fleet, now in the Philippines.

The division of which Lieutenant Coman is in command consists of five torpedo boat destroyers, the Dale, Bainbridge, Barry, Chauncey and Decatur. Coman graduated from the Annapolis academy in 1905, and has advanced rapidly since.

Robert G. Coman, a cousin of Lieutenant Coman, who formerly resided at Trempealeau, is now an ensign attached to the Destroyer Truxton of the first torpedo division of the Pacific fleet, now in Mexican waters. Robert Coman was also appointed to the Annapolis academy by Congressman Esch.

BODIES OF CADETS ARE ALL RECOVERED

DELAFIELD, Wis., April 28.—The bodies of I. H. Kelly, St. Louis, and Frederick Spate, Farmington, Minn., cadets at St. John's Military academy who were drowned April 27 in Lake Nagawicka, have been recovered.

They were located by John Jeremy and his son, Indians from Stillwater, Minn., who have dragged the lake for a week.

His Worry.

The Mind Expands As Health Returns

Quick Improvement is Noticeable When Proper Aid to Nutrition is Given

A low state of the general health is now the accepted cause of backwardness in children. So in the case of a backward child it is best to look towards building up its health. It will usually be found that the main trouble is in the food, in lack of assimilation and digestion. Hence care should be taken in the kind of food given to the child. This, with plenty of air and exercise, should bring about a change for the better.

Watch the condition of the bowels, to note whether the waste is being passed off or not, or whether it is being passed too freely. If either condition prevails give a small dose of that gentlest of all laxative-tonics, Dr. Caldwell's Syrup Pepsin. Thousands of mothers will testify to the wonders it has wrought in the lives of their own children, and for that reason legions of families like those of Mrs. Daisy McBroom, Hillsboro, Ind., are never without it in the house. She is the mother of Lucile and has been using Dr. Caldwell's Syrup Pepsin for Lucile since she was two.

Mrs. McBroom says it saved Lucile's life. It is the standard family medicine in the McBroom home. It is pleasant to the taste and so perfectly safe that it is given to infants and yet is equally effective for grown people. All druggists sell it and the price is only fifty cents and

HERBERT MANSON SERIOUSLY ILL

MADISON, Wis., April 28.—H. H. Manson, collector of internal revenue to the western Wisconsin district, is dangerously ill with erysipelas at his home in Wausau, according to word received here today by United States District Attorney J. A. Aylward. A slight change in his condition was noticed today but he is far from being out of danger. Dr. A. A. Dye, father-in-law of Manson, has gone to his bedside.

Potash in Pompell.
Dr. Kleiber, Swiss scientist, has discovered that the thick layer of ashes covering the ruins of Herculaneum and Pompeii contains large quantities of potash and argil, a valuable agricultural fertilizer. one dollar a bottle, the latter for families who need it regularly. Dr. Caldwell's Syrup Pepsin has no equal as a cure for constipation, indigestion, biliousness, headaches, sour stomach, gas on the stomach, liver trouble and kindred complaints. It has so many advantages that those who once use it forever after discard cathartics, salts, pills and other coarse remedies, for they are seldom advisable and should never be given to children.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

CROWDED CHURCH HEARS WASHINGTON

Famous Colored Educator Explains Aims and Methods of Tuskegee Institute

SHOWS THAT NEGRO IS ADVANCING

Beginning to Branch Out Into Industrial and Agricultural Success

Explaining the aims and methods of the famous Tuskegee Normal and Industrial Institute, Booker T. Washington, noted negro educator, last night spoke before a packed house at the First Congregational church.

"Do you realize," Mr. Washington said, "that we have in this country twice as many negroes as the population of Australia, and as many as the entire population of the Dominion of Canada? We have, as it were, a nation within a nation. By far the greater part of the colored people in the United States live in the South, and it is there that the race problem exists most strongly. And it is not my aim to confine myself to work among people of my race, but it is my ambition to do all in my power to benefit all the people of the South without regard to race."

Tells of Tuskegee
In talking of the progress of the Alabama Institute of which he was the founder and is now the principal, Mr. Washington said, "I started in Tuskegee in 1881 with one teacher and thirty pupils. Now we have 1,690 students and 197 instructors, the students coming from thirty-four states of the union and from seventeen foreign countries. From a shanty, we have grown to an institution of three thousand acres of land and ninety-seven buildings, valued at \$1,500,000 on which there is not a sign of a mortgage or a debt."

"Before I took up the work of class work instruction from books," said Mr. Washington, "I went into the homes of the negroes to study the conditions and the needs of the people, to best learn the way in which to teach the students. From the beginning, I gave instruction from books and from the Bible, along with training in the mechanical arts, the building trades for men and in sewing, cooking and laundry work for the women. Training in agriculture has been given since the start to both men and women."

Disliked Trade Teaching
"At the beginning of the work at the institute, the people expressed displeasure when they found out that instruction would not be confined to books, but we have reached the point in our development when the idea of work leads. From the beginning of Tuskegee, we have learned that one cannot learn through the study of books alone, but by the study of the thing directly."

"To me," the speaker said, "the south is the most interesting part of the United States, especially for the man who takes an interest in the welfare of the race."

In telling of the progress of the negro in the south, Mr. Washington made known that in Virginia, one out of every sixteen acres of land belongs to the negro, and that the colored people of the south own a total of \$31,518,000 worth of farm lands. There are sixty-three banks in the south owned by negroes, besides 300 drug stores and \$10,000,000 in grocery stores. "The figures may seem small," he said, "but they indicate the direction that the race is taking."

67 Percent Literate
"Fifty years ago, but three per cent of the negroes could either read or write. Now sixty-seven per cent of them can read, write and cipher."

In closing, Mr. Washington said, "We are making tremendous progress by bringing about a friendlier feeling with the white people. There is more good going on in the south than the people outside know about. Within the last ten years, the black and white people have been co-operating as they never did before."

M. Washington spoke at the Normal school this morning.

AFFIRM DAMAGE LAW

WASHINGTON, April 28.—Sustaining the Nebraska law permitting wives and children of habitual drunkards to recover damages from saloonkeepers who sell liquor to their husbands, and fathers, the supreme court today affirmed large damage verdicts secured by Mrs. May Budger of Nebraska City, enb, against Louis W. Prentice, and Christian W. Schneider, saloonkeepers. Mrs. Budger and her children brought the case against the saloonkeeper for sales of liquor to Charles Budger, a paper hanger, alleges to have become a habitual drunkard.

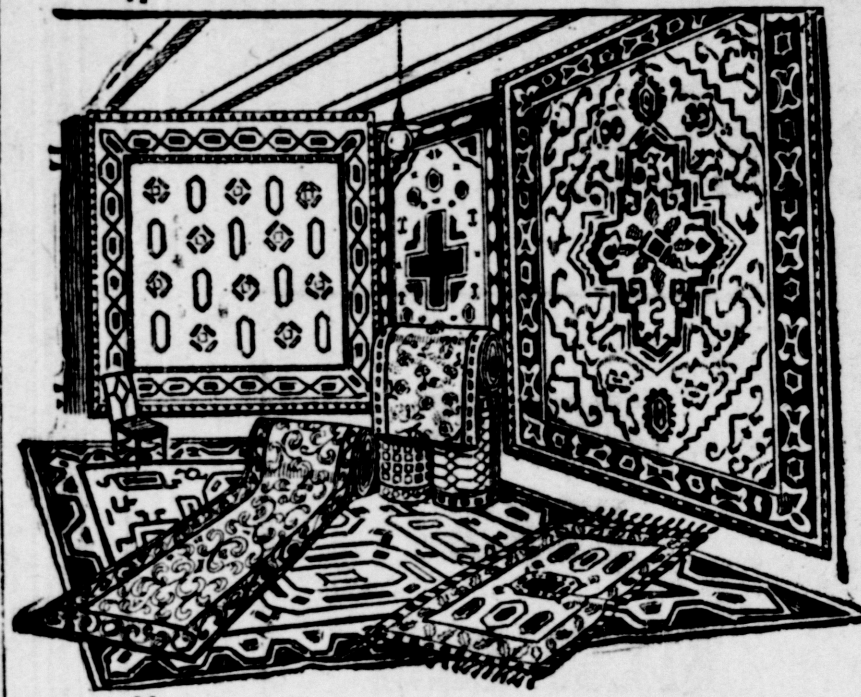

Eccentric Inn Names.

We are losing most of our eccentric inn names, but in Germany they are adding to them. Berlin now boasts the "Comfortable Chicken," "Cold Frog," "Stiff Dog," "Thirsty Pelican," "Dirty Parlor," "Musical Cats," "Boxers Den," and "Lame Louse." Leipzig has "The Old Straw Bag," Stadtohen an "Open Bungalow," and the vicinity of many a cemetery in the Fatherland is graced by a "Last Tear."—London Chronicle.

The Suitor.

Young Wilmarth sought an interview with Mr. Carpenter. "I'd like," said the young man, nervously, "to marry your daughter, sir." "Well, I've got six," responded the obliging father. "Take all you want."

CAN'T UNDERSTAND AMERICAN TROOPS

Vera Cruz Peons Unable to See Connection Between Killing One Day and Feeding Next

BY BERNARD RUCKER
(United Press Staff Correspondent)
VTRA CRUZ, Mexico, April 28.—The poor peons of Vera Cruz, accustomed only to abuse and virtual slavery, cannot understand the Americans.

They cannot understand how the American marines and blue jackets can shoot and kill one day and then feed, shelter and nurse their enemies the next.

It was mainly the peons who so persistently kept up the sniping of Americans from the house tops on Tuesday and Wednesday. But now they are being cared for.

Feed Mexicans
Extreme measures have been taken to make the city in which they live sanitary in every respect. Refugees waiting last night for a train to take them to Mexico City were fed by the American troops.

While they eagerly ate the food supplied for them and contemplated flight, one of the ship's hands entertained them by playing "Get Out and Get Under."

Mexicans crowded in the cafes last night, laughing and chatting. The marine band played on the plaza, while laughing crowds of the upper classes promenaded and cowed peons looked on, their eyes fairly bulging with wonder at this sight of peace within so few hours after the

Had Tuberculosis ---Now Insured

When you know a man has been afflicted with Consumption, and later obtained insurance, it means that he has recovered his health, as in this case:—

237 Dean St., Brooklyn, N. Y.
"Gentlemen:—I was troubled with night sweats, a severe cough and was very weak; having, in fact, absolutely no ambition whatever. I consulted a physician, who told me my lungs were affected. Not satisfied, I went to another doctor, who said that I was in the first stages of Consumption. At this point I started to take Eckman's Alternative. The night sweats stopped almost immediately, my cough became looser and gradually disappeared. My weight is now 142 pounds and my physician has pronounced me perfectly sound—which, together with the fact that I have just been accepted by two different insurance companies for insurance, makes me sure of my entire recovery."

(Abbreviated) W. E. GEE.
(Affidavit)
Eckman's Alternative is most efficacious in bronchial catarrh and severe throat and lung affections and upbuilding the system. Contains no harmful or habit-forming drugs. Accept no substitutes. Sold by Geo. E. Mariner, Chas. Beyschlag and leading druggists. Write Eckman Laboratory, Philadelphia, Pa., for booklet of recoveries.

dead and dying had littered the streets.

Rumors of Attack

The main work now before the American forces was administrative. The pacification of the city is almost complete. There are wild rumors of impending attacks by General Maas and even the dread bandit Zapata.

These rumors alarm the natives, but the Americans ignore them. There is the liveliest interest in the arrival of the troops under General Funston which are expected here within three days.

Despite the general appearance of peace Rear Admiral Fletcher still warns Americans against appearing on the streets at night. He has advised all to remain in the hotels or aboard the ships. The Mexican papers have resumed publication and carry lurid and exaggerated accounts of the taking of the city. There is an undercurrent of caustic bitterness and veiled hints of Mexican resentment in the stories published.

Money Depreciates

The exchange rate is rapidly rising and a peso is now worth only forty cents. The price of all foodstuffs is increasing daily.

Re-establishment of the municipal government is still progressing slowly because of the fear of the officials that they will be punished by the federal government if the orders of Admiral Fletcher are obeyed.

The gunboat Nashville was still in port here today, having been recalled after starting for Puerto Mexico, when it was reported Mexicans there had threatened to kill all foreigners if war ships appeared.

LAX METHODS IN PLACING CHILDREN

CHICAGO, April 28.—Sensational disclosures of lax methods employed in Cook county hospitals in letting out children for adoption were made before the Curran legislative investigating committee in session today. Representatives of scores of Chicago hospitals testified.

Dr. C. S. Woods of the non Park Maternity home, testified that in some hospitals the home conditions of applicants for children were not investigated, and that in one instance there was no record kept after the return of a child to the hospital after a trial at a home.

A superintendent of another hospital testified that \$50 is the average price received for letting a child out for adoption.

BATTLE REPORTED

LAREDO, Texas, April 27.—A report reached here this morning that the Mexican federals who evacuated Nuevo Laredo after firing the town and then fled to the southwest, encountered the rebels in a strong position near Cameron last night. A fierce battle resulted, continued nearly throughout the night. The federals are said to have been defeated.

War Secretary Killed at Sea.
It is somewhat remarkable that the first British secretary of war, Sir W. Clarke, was killed in a naval action. His duties were those of a secretary to the commander-in-chief, and, as such, he accompanied the duke of Albenmarle to sea in 1666, and was killed on June 1. His official salary was at first \$2.50, and subsequently \$5 a day, out of which he paid his clerk.

PIRATES KILL CHINESE

200 ORIENTALS BUTCHERED OR DROWNED IN ATTACK ON BRITISH STEAMSHIP STATION

HONG KONG, April 28.—Two hundred native passengers were killed or drowned today during a desperate fight with Chinese pirates who attacked and burned the British steamship station near Macao.

Chief Officer Evans is missing. Other foreign officers and 150 passengers escaped. The pirates greatly outnumbered the officers at the station and swooped down with the greatest fury. It was only after the most desperate fighting that the officers and passengers succeeded in getting away.

BISHOP FOX GOES TO ROME

GREEN BAY, Wis., April 28.—Bishop Joseph J. Fox, head of the Catholic Green Bay diocese, has left for New York to sail May 6. He will go to Rome to present Pope Pius with the yearly donation. He will be away for several months.

His Object.
"So you want to reduce your weight?" said the physical culture expert. "No," replied the caller, "I merely want to get into some sort of athletic activity that will permit me to wear clothes that are really light and cool in warm weather."

FOUR LIVES ENDED IN BUT FEW HOURS

Record for Fatalities Set in Milwaukee Yesterday; Neck Broken by Fall on Rail

MILWAUKEE, Wis., April 28.—A child, a youth and two men died yesterday from injuries received in accidents.

They were:
John Vilan, aged 4, 444 South Pierce street, struck by an interurban car Saturday afternoon, died early yesterday morning in Emergency hospital.

Frank Schroeder, aged 16, 136 Garfield avenue, neck broken when his chin struck a railroad rail at the foot of Garfield avenue.

Unknown man, aged about 45, fractured skull when he fell on sidewalk at Nineteenth and Clybourn streets.

Frank Deahman, aged 50, 2119 Elm street, died from injuries received April 23, when struck by an automobile at Eighth and Wells streets.

Last Resort.
"Do you think women should propose?" asked the passe lady. "I don't know," mused the young thing. "Have you tried everything else?"

Philadelphia, 3; New York, 4
NEW YORK, April 28.—In a rather loose game the Giants took the final contest of the series from the Phillies yesterday, 4 to 3. Mathewson opposed Chalmers and won the decision in a wild flurry of base on balls and errors. Stock, the Giant recruit third baseman, led the team in batting, getting three hits in four times up, including a two bagger. Score: R H E Philadelphia . 000200001—3 5 3 New York . 00100102x—4 7 6 Batteries: Chalmers and Killifer; Mathewson and Meyers.

Cincinnati, 2; St. Louis, 1
CINCINNATI, April 28.—Rube Benton, pitching in midseason form, held the Cardinals to two safe drives yesterday afternoon and the Reds won the second game of the series 2 to 1. Robinson also twirled a good game, having only one bad inning—the second—when the locals put across their two tallies. Steel pitched the last inning for the visitors. Score: R H E St. Louis . 000010000—1 2 0 Cincinnati . 02000000x—2 7 1 Batteries: Robinson, Steele and Snyder; Benton, Clark and Gonzales.

AMERICAN LEAGUE

Philadelphia, 5; New York, 4
PHILADELPHIA, April 28.—A batting rally in the eighth inning gave the Athletics a 5 to 4 victory over the Highlanders yesterday afternoon. Bender lasted seven innings and was taken out for a pinch hitter, Bill Orr. He was succeeded by Brown, who blanked his opponents in the eighth inning and was taken out for Kopf, a pinch hitter, in the ninth. Plank went to the rubber and held New York safe. Score: R H E New York . 001003000—4 8 1 Philadelphia . 00101003x—5 8 1 Batteries: Schultz and Sweeney; Bender, Brown, Plank and Schang.

Washington, 6; Boston, 1
WASHINGTON, April 28.—Joe Boehling and the Nationals handed the Red Sox a 6 to 1 beating here yesterday, the locals chasing George Foster, who defeated them in Boston last week, in two innings. While Boehling was his hard his support was sensational. The Nationals executed three fast double plays and McBride's work at shortstop was nothing short of wonderful. Yerkes played a good game at second for the visitors. Score: R H E Boston . 000001000—1 7 0 Washington . 04200000x—6 12 0 Batteries: Foster, Leiser, Thomas and Nunemaker; Boehling and Henry.

MOHA WILL MEET GUNBOAT SMITH

MILWAUKEE, Wis., April 28.—Wild Bob Moha, Milwaukee cave man contender for middleweight championship honors, has wearied of an apparently fruitless chase after the leading 155 pounders and has decided to go after the biggest game in the heavyweight white division. Moha yesterday accepted terms to meet Gunboat Smith before the National Athletic club early in May. The men will meet at catchweights. Moha plans to enter the ring around 165 pounds while Smith will weigh about 178. This difference in poundage is not such a handicap as some might think as the big fellows seldom are closely matched in respect to weight.

THREE PIRATES LEAD KONETCHY

Eddie Konetchy is not batting up to his usual high mark with the Pittsburgh Pirates. His average for the first seven games of the season is .285. Out of the twenty-eight times at bat he landed for eight safe hits. Gibson, Wagner and Vioux on the Pirate crew are all leading the LaCrosse boy with the stick.

VICTORY FOR REDS

CHICAGO, April 28.—Victory for the Cincinnati Reds and organized baseball in their fight to prevent Chief Johnson, Red pitcher, for the working of Kansas City Federals, was seen in a statement made today by Judge Foell from the bench. In continuing a judgment against a demurrer to the Reds' petition for an injunction presented by the Kansas City club until tomorrow, Judge Foell said: "If the facts in the case are as represented there is sufficient legal cause to sustain the injunction."

SCHOOL OF MANNERS.

"I think the Philadelphia trolley-men are the most impertinent I've ever met," snapped a woman passenger to a conductor in a near-side car the other night. "Maybe we are, madam," replied the P. R. WATCHING THE SCOREBOARD BY HAL SHERIDAN

Who stole the Pirates' bats? 'Tis a harsh word—stolen—but when fifty-two pet war clubs vanish as if by magic, the Pittsburgh players see no reason to use delicate phrases.

Honus Wagner, Ham Hyatt and Mike Mitchell, well known sluggers, all considerably peeved, appealed in the name of the club to the Chicago police.

And suspicious glances are cast Cubward, from whose domicile the bats disappeared, after a swatfest. Barring rain, the three big leagues were to present a solid front today, the first concerted action for almost a week.

Rube Benton's slants, delivered in mid-season form, were too much for the Cardinals. De Gints and de Phillies vied with each other in making errors. New York won, getting six errors while Philadelphia made only four.

The Senators batted Foster of the Red Sox out of the box yesterday, scoring four runs in the second on six hits and a sacrifice.

No games were played by the Federals yesterday, the clubs all having long railroad trips for today's fays.

\$3,600,000 FOR NEW STATE ROADS

MADISON, Wis., April 28.—About \$3,600,000 will be spent in the construction of highways in the state next year. In a letter to the division engineers and county highway agents in the state, A. R. Hist, state highway engineer, says that "indications are that state aid will be more than called for again this year." He urges that the counties and towns keep down the appropriations so that the aid will not overreach a total expenditure of \$3,600,000. The state has already appropriated \$1,200,000 as its share of state aid for next year.

Curtain.
Gilbert K. Chesterton, the English satirist, was an extraordinarily stout man. An English newspaper, describing a meeting at which Mr. Chesterton was the principal speaker, said: "Mr. Chesterton then mounted a platform, and the chairman was seen no more for half an hour."

The Dissemblers.
Gibbs—"I'd really like to know the secret of social success." Dibbs—"My boy, there are many secrets of social success, but one of the most important is to be able to pretend you are having a good time when you're not."

In the Darkest Hour.
When weary life, breathing reluctant breath, hath no hope sweeter than the hope of death; then the best counsel and the best relief to cheer the spirit or to cheat the grief, the only calm, the only comfort heard, comes in the music of a woman's word.—Edwin Arnold.

Revised Prayer.
The week after her father bought an automobile, Julia, aged five, said her prayer like this: "Forgive us our trespasses as we forgive those who try to pass us."—Life.

FOREIGN MARKETS

New York Stocks
NEW YORK, April 28--The entire list showed fractional gains at opening, but by the end of the first few minutes there was a slight decline. Room traders were still bearish. Steel gained 1/4 and Canadian Pacific was strong, showing a gain of two points.

11 a. m.--Missouri Pacific broke sharply to 16 1/4, a new low record, during the first hour, testing the strength of the entire list. The stocks held firm, however. There was a sharp spurt of bullish activity during the second hour, but a liberal supply of stocks was furnished and the market relapsed into comparative dullness.

2 p. m.--During the early afternoon stocks in general were strong. Dullness was regarded as natural in view of the uncertainty as to the character of the U. S. steel scheduled for publication at the close of business.

The stock market closed dull.

Chicago Grain Review

CHICAGO, April 28--More rain reports and a quiet market abroad kept the grain market bearish all day. Colder weather predicted for tomorrow and freezing weather in some portions of the belt served as a check, though just at the time talk of a coming pronounced slump sprung up.

Wheat held up better than corn and oats futures. May wheat dropped 3/4c from the opening. The early morning selling offers were responsible. After the first hour prices remained fairly steady. July wheat dropped 1/4c.

Corn suffered the most. The early futures dropped a point. July was off 5/8c.
May oats dropped 3/4c and July 1/2c.

A dull provision market all around and heavy receipts of hogs with more in prospect caused a falling off in prices generally.

The weakness prevailed in the market up to the close. Practically all the futures closed below their opening prices.

May wheat lost 1/4 of a point in the day's business, July lost 3/4c. May corn was off 3/4c at the close, July 5/8c. May oats was down 1/2c and July up 1/4c.

Provisions took a brace up before the close but remained quiet.

ODDS FAVOR WELSH IN TONIGHT'S FIGHT

LOS ANGELES, Cal., April 28.—
With the twenty round battle be-
tween Freddie Welsh of England and
Leach Cross, the east side dentist
from New York, slated for decision
tonight at Vernon, ring followers on
the coast are laying 2 to 1 that the
Englishman is returned the winner.
On past performances Welsh is on
the short end. While this price seems
a bit far fetched, Los Angeles al-
ways has had a great opinion of
Welsh ever since he beat Willie Rit-
chie a few years ago. Of course, that
was before Willie was lightweight
champion, but because of Ritchie's
failure to give Welsh another battle,
the fans here think the champion has
great respect for the challenger's
ability.

In the present match with Cross,
Welsh is down to required weight,
135 pounds ringside, and says he
feels at his best. Cross also looks
fit and ready and is willing to bet
all his own end and give 2 to 1 that
he is on his feet at the finish. Cross
says that if he ever connects with
one of his best punches the Engli-
shman will not know what hit him.

Not a Matter of Wages.
"No person can live properly on less
than a thousand a year," says a writer.
But some persons wouldn't live prop-
erly no matter how much or how lit-
tle they got.

Widespread General Deception.
Dancing is largely a matter of self-
deception. No man is really as grace-
ful as he feels.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe
to Bring Back Color and
Lustre to Hair

That beautiful, even shade of
dark, glossy hair can only be had by
brewing a mixture of Sage Tea and
Sulphur. Your hair is your charm.
It makes or mars the face. When it
fades, turns gray, streaked and looks
dry, wispy and scraggly, just an ap-
plication or two of Sage and Sul-
phur enhances its appearance a hun-
dredfold.

Don't bother to prepare the tonic;
you can get from any drug store a
50 cent bottle of "Wyeth's Sage and
Sulphur Hair Remedy," ready to use.
This can always be depended upon
to bring back the natural color,
thickness and lustre of your hair and
remove dandruff, stop scalp itching
and falling hair.

Everybody uses "Wyeth's Sage
and Sulphur" because it darkens so
naturally and evenly that nobody can
tell it has been applied. You simply
dampen a sponge or soft brush
with it and draw this through the
hair, taking one small strand at a
time; by morning the gray hair has
disappeared, and after another ap-
plication it becomes beautifully dark
and appears glossy, lustrous and
abundant.

DOCTOR GETS TERM

PROPRIETOR OF PITTSBURG
"HOUSE OF MYSTERY" PLEADS
GUILTY AND IS FINED SIX
CENTS—GETS FIVE YEARS

PITTSBURG, Pa., April 28.—Final
arraignment of Lucy D. Orr, alias
Lucy D. Adams, the nurse held on a
charge of larceny in connection with
the death of Mrs. Myrtle Allison at
the Bellevue "House of Mystery," will
be the next movement toward clos-
ing the sensational case.

That was the declaration of Dis-
trict Attorney R. H. Jackson today
following disposition of the cases
against Dr. C. C. Meredith, who
pleaded guilty to the charge of hav-
ing performed a criminal operation on
Mrs. Allison. Meredith was sen-
tenced to pay a fine of six cents,
costs of the prosecution, and to be
imprisoned for not less than five
years in the Western penitentiary.
The murder charge against Meredith
was dropped.

CLOSING OF "HEART SONGS" CAMPAIGN

We announce, with regret, the
closing of the wonderful campaign
in distributing the greatest song
book ever gotten together—"Heart
Songs." We have only copies enough
on hand to satisfy those of our
readers who bring their coupons for
the remaining few days. The ad-
vertisements that have been running
in these pages for several weeks past
have fully described the merits of the
book—and the daily readers have
constituted a veritable educational
course in song music. We are more
than gratified at the response from
the public, and are sanguine that
through this enormous distribution
the refining influence of the songs
will be felt for years in this commu-
nity. Attention is called to the ad-
vertisements that may appear in our
columns for the brief period remain-
ing. The coupon offer will be pub-
lished daily.

Brainy.
Brains of Chicago men who desert
their wives are to be examined and
no attention is to be paid to the pul-
chritude of the deserted wives. These
new methods set one to thinking.—

His Good Deed.
"What good deed did you perform
today?" the first class scout was
asked. "Mother had only enough cas-

take it," replied the hero.—Buffalo Ex-
